ABOUT AMARILLO**Visitors From South Plains Pays Glowing Tribute to the Metropolis of the Panhandle.**

"After a few days and many troubles, I find myself located for an indefinite period in the 'Metropolis of the Panhandle'—Amarillo, and while the busy hum of steam cars and things is quite annoying to one who has been accustomed to the blissful quietude of smaller cities, I hope to soon become tame and adjust myself to the surroundings." Says a writer to the Lubbock Avalanche.

The north plains country is making rapid strides toward popular settlement and one can but stand in awe as he watches the influx of farmers arriving daily from the north and east. Coming as they do from agricultural districts, they will of course proceed to "till the soil," and a year's time is sure to witness a wonderful change in Panhandle farming; something we all should be glad to see.

Amarillo is coming in for her share of the good things as well as the surrounding country, and many improvements are scheduled for an early date. Among other things is a street car line and a gas plant.

It is the census of opinion here that work on the Plainview railroad will commence at an early date, in fact it is claimed that official announcement has been made to that effect. I hope the rumor will prove true, as the line would be of untold benefit to the south plains, the lack of which retards the development of the greatest and richest scope of country in the United States. While your little town is a long way from the railroad, I find that she is not an "unknown quantity" by any means, as I have frequently heard favorable comments on Lubbock as a town and Lubbock as one of the best counties on the Plains.

To my friends in your town I extend a special invitation to come

to town sometime, see the electric lights and other specimens of double distilled lightning. It will do them good and give each a story to tell in their home. Tell them I haven't forgotten them; that absence makes the heart grow fonder, and that particular chunk of my anatomy is warming toward them ever."

Good looks bring happiness. Friends care more for us when we meet them with a clean, smiling face, bright eyes, sparkling with health, which comes by taking Hollister's Rocky Mountain Tea. 35 cets. E. R. Roach Drug Co. 10-1m

Valentine Party.

At the hospitable home of Miss Victoria Green, on Wednesday evening, February 14, 1906, a merry crowd of young people met to do honor to the old Saint, so dear to every youthful heart. The rooms were very beautifully decorated with red hearts festooned and hung throughout the rooms.

A merry game of "Up Hearts" was indulged in while the music and merry conversation interspersed made the evening one of infinite pleasure.

Dainty souvenir hearts were given to each guest, which were exchanged with their partners and progressive wishes were written. The archery contest provoked much laughter as each guest tried with bow and arrow to pierce the heart of cupid. W. J. Dobson won first prize and Miss Edna Killion the second. Dainty refreshments were served.

Those present were: Misses Edna Killion, Lou Key, Gertrude Huffman, May Timmons, Mary Belle Pottinger, Pauline Blake, Minnie McClellan, Alma Bates, Ida Berry, Mr. and Mrs. Copely, Messrs W. J. Dodson, Jno. Henry, Arthur Meeks, L. Timmons, Marvin Jennings, A. Fletcher, Ed. Fields, Rupert Berger, J. E. Spain, Barnette O'Bryan and G. W. Jes-sup.

LAND OF PROMISE**The Panhandle Offers the Greatest Opportunity for Cheap Land in the Country.**

The rainbow of promise extends from one side of the Panhandle to the other, as a beacon light to guide weary wayfarers to a land flowing in milk and honey, where they can secure homes and live under their own "vine and fig tree," breathing ozone that expands the spirit of liberty and causes the ruddy glow of health to mantle the cheeks of the sick. Never since the morning when the sun first flashed over the treetops in the Garden of Eden and illuminated an uninhabited world, has such a God-given realm been given to the people. Go and circumnavigate the globe—examine its most favored spots with a crucial and critical eye—then you will return satisfied that here the sunbeams are the softest, the zephyrs the most invigorating and the soil most responsive to the touch of the hoe and plow in the hands of an intelligent husbandman. Flowers now bloom and exude their sweet-scented aroma where thistles once flourished. The war trail of the Indian has been obliterated by the invasion of the "steam iron horse"—the advance guard of civilization. The ashes of the council fires have been scattered to the four winds, and on their cities and towns have arisen, with burnished church spires pointing heavenward, standing as monuments to the fact that the people are not forgetful of Him from whom all blessings flow—great and small.

Land in this western Eldorado, where the most gratifying and astonishing results are attained, ranges from \$8 to \$15 per acre. If the present rapid rate of settlement continues—there is no prospect of abatement—within two years it will double in price. Now is the time to invest.—Baylor County Banner.

HOMES IN TEXAS.

80,000 Acres of the Famous LX Ranch is now on the Market at \$3.00 an Acre and up.

**DO YOU FEEL LIKE THIS?****Here is a Victim of Neglect**

Bad digestion was the starting point. He ignored the warnings sent up by an overloaded and suffering stomach, hence the disorder spread until it has seriously weakened the entire digestive apparatus, involving the kidneys, liver and bowels. It is the beginning of a sick spell.

A person in this state of health finds work a burden. Strength and energy are gone, he can't eat with relish, he is tired, cross, nervous and dull—a truly useless and disagreeable person. The worst part about it is that such a person is liable to take any dangerous disease that may be about. Pneumonia, Consumption, Bright's Disease, Cholera, Typhoid or Yellow Fever, Malaria, Small Pox would find in him an easy mark because his system is weakened by impurities which are poisoning his very life-blood. In this condition a powerful system cleanser and regulator is urgently needed, and for such purpose what more effective remedy can be found than the justly celebrated

**Prickly Ash Bitters**

A Remedy that Has Proved Its Value For Blood, Kidney and Bowel Disorders in a Brilliant Record of Cures Performed.

It is the **RIGHT** medicine for such purpose, the best and greatest blood purifier, system cleanser and regulator. It combines the fine tonic properties of a kidney medicine, stomach, liver and blood purifier with a genial regulating influence in the bowels. It will gently urge the vital organs to a better and more complete performance of their duties, give them strength and tone and restore healthy activity throughout the body. When the system has been cleared of obstructions and the kidneys resume fully their office of **PURIFYING THE BLOOD**, the general condition takes an upward turn. Appetite and digestion are improved, the eyes are brighter, the hollow cheeks filled out, the complexion loses that sallow, muddy cast, giving place to a clear skin and ruddy glow. These are the signals of returning health, and they bring that thrill and joy of living and interest in life's duties that only those in perfect health enjoy.

Some dealers will try to sell you something which they say is just as good as PRICKLY ASH BITTERS. **DON'T TAKE IT.** Get the genuine with the large figure 3 in red on the front label. It will give you the results you desire. Put up in 19 ounce bottles. **PRICE \$1.00.**

GRASS.

Did you ever notice how eagerly the corn-fed horse seeks grass in the Spring? Not solely because he's hungry, instinct tells him he needs it. His system demands a tonic and perigative to drive out impurities, and the young tender grass is his natural medicine. All animal nature craves its particular "Spring Tonic" and purifier and none have greater need of it than the human animal. Man, because none give their digestive organs so much abuse. All men acknowledge nature's cry for relief from Winter impurities, but there are thousands who do nothing to satisfy this need, and it is among these that disease reaps its harvest of death every year. The man who knows the value of a strong vigorous body when hot weather works a drain upon his strength will use for a couple of weeks in the early Spring a good blood purifier and system regulator; and where can you find a better remedy for this purpose than **PRICKLY ASH BITTERS**, the great blood, liver and bowel cleanser and system regulator that has done so much for working people. It vitalizes the blood and puts the entire system in condition for Summer work. Try it.
